Response to Amendment

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ted Rittmaster on 4-28-2004.

The application has been amended as follows:

Claims 21-42 have been cancelled.

Allowable Subject Matter

Claims 1-11 and 13-20 and 43-45 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches or suggests a medical system as claimed comprised of the combination of an ambulatory medical device with electronic control circuitry, a processor to control a telemetry system and a treating /monitoring device to treat/monitor a patient, and a communication device with electronic control circuitry and processor to control a telemetry system and a communication device such that both the communication device and the medical device each have a unique preamble(bit pattern) associated with messages sent from their respective devices.

Art Unit: 3742

Claim 1 recites a medical system having a medical device MD and a communication device CD and wherein the MD's telemetry system and the CD's telemetry system are controlled to use one of a predefined plurality of preambles including a first preamble for messages sent from the communication device to the medical device and a second preamble for messages sent from the medical device to the communication device. None of the prior art of record (alone or in combination) describes or suggests a medical system as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel I. Robinson whose telephone number is 703 306-9043. The examiner can normally be reached on M-F 5:30am-2:30pm.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
